

RAM Maths Circle

September 28, 2024

Swami Vivekanand Vidya Mandir, Dombivli

In this session, the facilitators put forward the following problems.

Questions

- Consider DD-MM-YY way of writing a date. A year is said to be a good year if $DD \times MM = YY$. Now, How many not good year are there in a century(2001-2099)?
- Starting from 12 am to 8 am, How many times do the minute hand and hour hand make a right angle between them?
